SUMMARY

Detail-oriented and tech-driven MCA candidate with a strong foundation in software development, data structures, and web technologies. Passionate about building scalable applications and solving real-world problems through code. Proficient in Java, Python, and modern frameworks like React and Django. Skilled in database management, object-oriented programming, and Agile methodologies. Demonstrates excellent collaboration skills, fast learning ability, and a commitment to continuous improvement. Actively seeking an internship or entry-level role to apply academic knowledge in a professional setting and grow as a full-stack developer.

EDUCATION

Bachelor of Computer Application
Dr. Arvind. B.Telang Arts, Science and Commerce College, Pune   *Jun 2020-Jul 2023*

SKILLS

Languages: C/C++, Python, Java, Javascript, HTML, CSS.
Framework: React Js, Node Js, Django
Database: MySQL

PROJECTS

Tourism Management System   *Oct 2023*
- Developed a responsive tourism web application featuring destination listings, travel packages, and user bookings using **React.js** for the frontend.
- Built secure backend APIs with **Node.js** and **Express**, integrated with **MySQL** for managing user and tour data.
- Implemented user authentication and booking functionality, enabling a seamless travel planning experience.

E-Commerce Website   *Nov 2022*
- Built a full-stack e-commerce application replicating Flipkart features using **React.js** for the frontend and **Node.js/Express** for backend services.
- Implemented product browsing, cart management, order placement, and secure **user authentication**.
- Utilized **MySQL** for dynamic data handling, enabling real-time updates of products, users, and orders

Work Experience

Your Growth Partner
Software Development Intern   *Feb 2025 – May 2025*

- Developed a fully responsive wedding photography website with service listings, galleries, and booking forms using **React.js** and **Django**.
- Built secure user authentication, admin dashboard for managing clients and media, and dynamic routing for service pages.
- Integrated **MySQL** for efficient data handling of bookings, testimonials, and portfolio content.
